

Cover Letter – Software Engineer / Full Stack Developer

Dear Hiring Manager,

I am writing to express my interest in the Software Engineer position within your organization. With over four years of professional experience in full-stack web development and a Master of Computer Applications (MCA) degree, I have built and maintained scalable applications across diverse industries including logistics, recruitment, finance, healthcare, and enterprise management systems.

My expertise includes backend development using Node.js, NestJS, AdonisJS, and Express.js, along with frontend development using React.js and Next.js. Throughout my career, I have designed and implemented secure REST APIs, authentication and authorization systems using JWT, database architectures with PostgreSQL, MySQL, and MongoDB, and cloud-based file management solutions using AWS S3.

In my recent role as a Software Developer, I worked on large-scale platforms integrating global logistics providers such as DHL, FedEx, Aramex, and SMSA. I have also integrated payment gateways including Stripe, Razorpay, and Flywire, ensuring secure and reliable transaction processing. My experience extends to real-time applications using Socket.io and AI-powered solutions through OpenAI integrations.

I take pride in writing clean, maintainable, and efficient code while collaborating effectively within agile development teams. My ability to understand business requirements and transform them into robust technical solutions has helped deliver successful projects and measurable business value.

I am excited about the opportunity to contribute my technical expertise, problem-solving abilities, and passion for software engineering to your organization. I would welcome the opportunity to discuss how my background aligns with your team's goals and requirements.

Thank you for your time and consideration. I look forward to hearing from you.

Sincerely,

Rahul R

Software Developer
